Procurement of Supply and Delivery of Neat Diesel Oil for Ilijan Natural Gas Power Plant for CY 2019

(Project Reference No. 2019-PB-NDO-015-01)

Supplemental Bid Bulletin No. 2

11 June 2019

**SUPPLEMENTAL BID BULLETIN NO. 2
FOR THE PROCUREMENT OF SUPPLY AND DELIVERY OF
NEAT DIESEL OIL FOR ILIJAN NATURAL GAS POWER PLANT FOR CY 2019**

1. NOTICE TO BIDDERS

Bidders are hereby notified of the amendments, revisions, modifications and clarifications to the Bidding Documents dated 31 May 2019 for the Procurement of Supply and Delivery of Neat Diesel Oil for Ilijan Natural Gas Power Plant for CY 2019.

This Supplemental Bid Bulletin is being issued to clarify the documents and specific attachments that must be submitted by the Bidder.

In any case, it is conclusively presumed that the Bidder, in preparing their bids, has taken into account the information and procedures set forth in the ITB.

2. CLARIFICATION TO VARIOUS PROVISIONS OF THE BIDDING DOCUMENT

A. Proposal to reduce the limits for High Heating Value (HHV) of the fuel to 19,500 Btu/lb and implement pricing penalty instead of outright rejection

The technical specification of 19,600 Btu/lb and provision for outright rejection for HHV is retained.

B. Clarification on fuel specifications for Carbon Residue, 10% Bottoms

As per ASTM D 4530:

1.3 This test method is applicable to petroleum products that partially decompose on distillation at atmospheric pressure and was tested for carbon residue values of 0.10 to 30 % (m/m). Samples expected to be below 0.10 weight % residue should be distilled to remove 90 % of the flask charge. The 10 % bottoms remaining is then tested for carbon residue by this test method.

Please be guided accordingly.

Quezon City, 11 June 2019.
